Manager industrialisation (m/f)

Technical foams

YOUR MAIN TASKS

As manager for the industrialisation, production methods and product integration you are mainly responsible for the

- industrialisation of the products to serial production maturity, based on the product characteristics specified by R&D after development phase, while taking into account deadlines and budget guidelines.
- implementation of new manufacturing processes and methods, including documentation and measuring equipment as well as training of the production staff.
- management of cross-functional teams of technical experts, cooperation with the in-house engineering department and external partners in the field of automation and machinery development.
- planning and execution of industrialisation projects at the interface between development and production.
- coordination of cost optimisation programmes in production (standardisation, automation, ...) by optimising set-up, lead times, material and human resources and waste reduction.

YOUR STRENGTHS

- Strong analytical skills and comprehension, even in more complex contexts.
- Team worker and fluent communicator.
- Conceptual and organisational skills, combined with implementation strength and hands-on mentality.
- Proactive, flexible and economic thinking and acting.

YOUR PROFILE

- Degree in engineering with competences in production or automation engineering, product development and business administration.
- At least 10 years of professional experience in an interface function between development and production or rather in the industrialisation of industrial products.
- Several years of management and leadership experience in LEAN-oriented companies.
- Knowledge in the field of foam extrusion is an advantage.
- Languages: Fluent in German and French as well as good command of English.

OUR OFFER

- A challenging task in an international operating innovative industrial company.
- A high degree of freedom of scope and of decision – You will quickly assume responsibility.
- An attractive remuneration package with various social benefits and individual training opportunities.
